a note on personal stewardship

RIGHT TO RIGHTS

Rights shape our choices for children.

Participation is a child's right as is provision and protection.

But participation is not given as much importance so space honours the child's right to participate.

Rights of children are values that guide the organisation and are woven as actions by all adults.

'A PLACE OF POSSIBILITIES FOR GLOCAL CITIES – Moving Forward in a Deep Learning World, A Concept Paper for Re-Imagining Pedagogy, Human Development, Education & Deep Learning' (June 19, 2020) accompanies 'GLOCAL: SDG TRANSFORMATION HUB-CITIES – A V-Rebound Reality for All, A Sustainable Township Economic Development Concept Paper' (June 7, 2020).

Focus

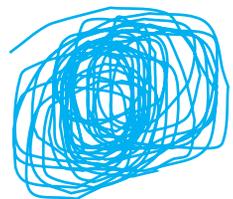

Keep focused on personal, home, workplaces, and community places. Don't keep focusing energy on the abstract global. Globally, the responses are increasingly being ringfenced to local focus. So focus on your own respective locations & buildings designated for shelter-in-place.

Positive Reinforcements

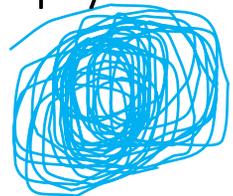

Focus prime energy on setting up concrete health & safety and positive reinforcements.

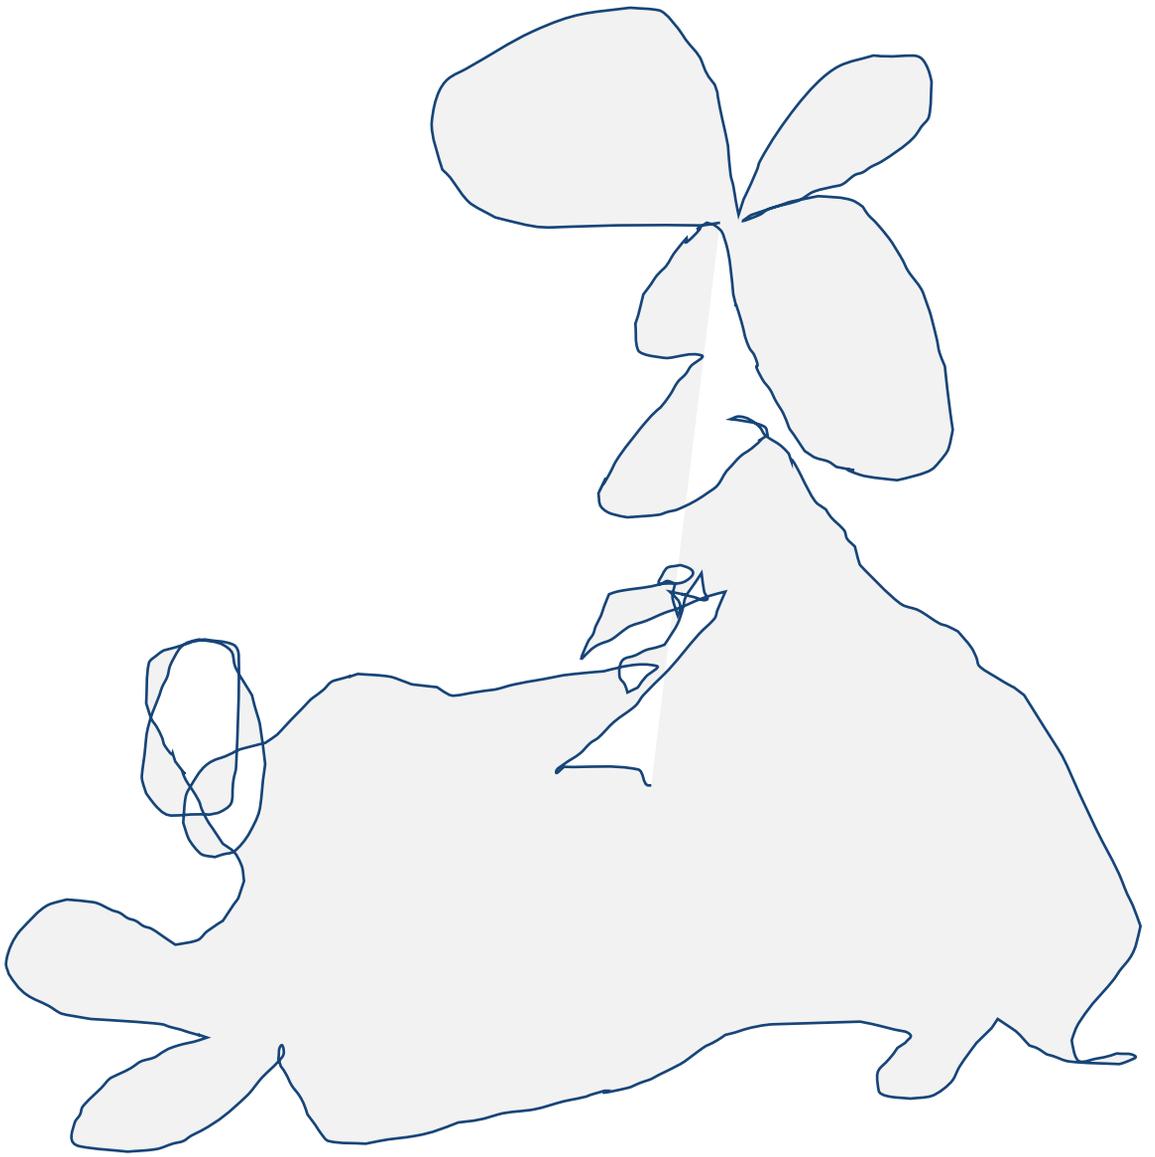

Social & Information Responsibility

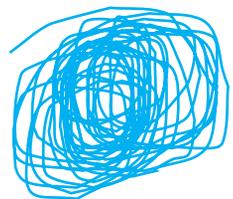

Sit tight and discipline the social & information transmission. Keep everyone safe, calm and positive. Examine information critically but within a perspective of shared or joint analysis. Be aware that this diverse group dialogue is vital. Listen deeply and compassionately.

Magnanimity

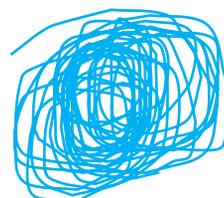

In an emergency, it is not about perfection but about kindness, tolerance and magnanimity. So be magnanimous and don't spread contagion of divides anymore.

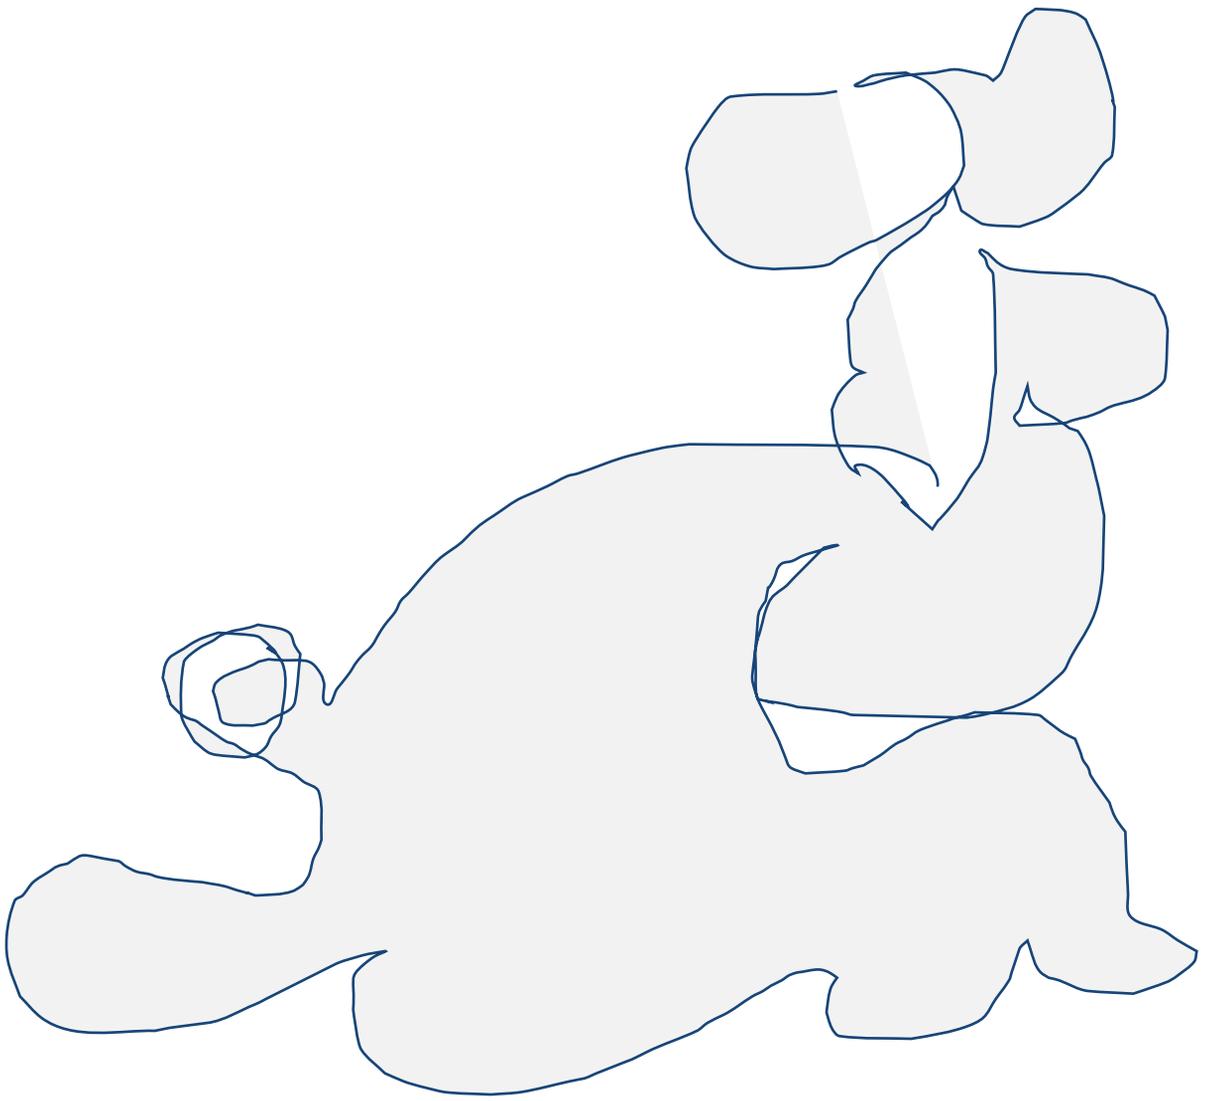

Effective Collaborations

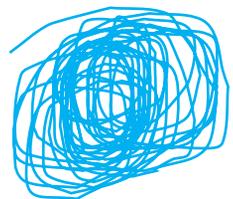

Create positive contagions of hope,
peace, love, and concrete collaboration.

Transform

Go into the adversity and make it beautiful. Get right into it, and clean it up. Build the necessary as you confront things that are not there when they need to be there and trust it all to come out beautiful.
